# Every man deserves his own special island.

Plum Island is it! Far away from the madding crowd, where you can retreat to your own special island and totally relax. You deserve a reprieve from the hustle and bustle of every day living; a place to come home to and just be you.  
That's Plum Island for you.

# Foster City, a very special place.

For very special people, who want to get away from it all, but not quite far enough away to do without the convenience of the city. As a matter of fact, you'll be closer to downtown San Francisco from here than from many of the residential sections of the city itself. A pleasant 30 minutes away by car,

train or commuter bus. Yet, there's no reason to ever leave Foster City because it has its own schools, shops, recreation and entertainment. Why would you want to live anywhere else?
